CWA and *Line and Lure* take no responsibility for statements or claims made in advertisements that appear in this publication.

The *Continental Whippet Alliance* was formed to achieve the following objectives:

1. to unite Whippet fanciers with the common goal of promoting, protecting and preserving purebred Whippet racing
2. to encourage and promote quality in the breeding and racing of Whippets and to do all that is possible to bring their natural instincts to perfection
3. to urge members and breeders to accept the Whippet Standard of the Breed as approved by the American Kennel Club as the only standard of excellence for Whippets
4. to do all in its power to protect and advance the interests of the Whippet by encouraging sportsmanlike competition at race meets and conformation competitions and by providing a friendly and enjoyable environment
5. to provide a testing ground for Whippets to demonstrate they still have the instinct, desire and physical ability to do the athletic activity they were bred for, helping to maintain the Whippet as a healthy breed

From the Editor

Wow, this issue is maxed out at 104 pages! I only got a few ads this time, but in addition to all the usual results, photos and reports for all meets held during May and June, this issue includes the premium list for the CWA National — which will be hosted by North Star Racing in Columbus, MN over September 24-26 — and several timely submissions on important issues impacting CWA now and in the future.

I encourage everyone to read Donna Miner's excellent article "To Profile or Not to Profile" that was originally published in the 2020 Whippet News Annual and re-printed here by permission, starting on page 26. Especially if you are a breeder, please consider the best practices outlined in the final two pages of the article. I had already completed DNA profiling on all my dogs, and made the decision to profile all puppies in any future litters, before reading this article, and I know of other breeders who are active in the CWA program who are doing the same. As *Line and Lure* editor, I encourage you to include your whippets' DNA profile numbers in your advertising in *Line and Lure* and elsewhere.

Our next issue will include results and meet reports for the few meets scheduled in July and August. Since there are only three meets on the schedule, I anticipate the issue will be much shorter than this one, and would love to compensate by including many more ad pages.

To that end, the next issue will be our **Versatility Issue**, whose special ad theme showcases our CWA whippets' success in other endeavors, including conformation, coursing, tracking, obedience, agility, flyball, dock diving, therapy work, barn hunt, and any other dog sport to which they set their sights (pun intended)! Whippets truly can (and do!) do it all! With dog events opening up all over the country after the long months of inactivity in the pandemic, I know there are people out there trying new things with their versatile dogs, and we'd love to hear all about about them!

NEXT DEADLINE
August 31, 2021

Of course, off-theme advertising is always welcome at the same regular rate of \$15 for a full page. The next issue deadline will be **August 31**.

President's Report

by Lisa Ochoa

The President's report for this issue is centered around the very touchy and difficult investigation and follow-up of a pedigree error in which the correction of the sire had the effect of rendering a litter of CWA registered dogs, along with their offspring, ineligible for CWA. Additionally, all CWA registered dogs owned and/or bred by the breeders of this litter were suspended from participation in the program pending the results of AKC DNA profiling. Finally, the breeders themselves have been suspended for the duration of the ongoing investigation.

The error was brought to the attention of several CWA Board members in the fall of 2020, but no formal proof was forthcoming until early in 2021. Once that proof was obtained, the matter was placed before the entire CWA Board.

The error was discovered when a DNA profile application for one member of the litter was submitted to the AKC in 2019. As is the process, the AKC performed a routine comparison of his profile to that of any DNA parents and offspring. The comparison proved that the dog could not have been sired by the sire of record. The AKC placed the entire litter and all offspring on referral while they investigated the case. After many months, the AKC was eventually able to confirm an entirely different sire, proven via DNA profile comparison. The AKC has updated the Stud Book with this correction so the change is now official.

Unfortunately, the new sire was not CWA eligible, nor could he produce CWA eligible offspring. He had ancestors from banned kennels (Lyth and Besaps) in the third generation of his pedigree. Additionally, he had no bench champions in his pedigree. Thus, the correction of sire in the pedigree change resulted in the removal of all bench champions from the pedigree of the named litter, which had the effect of rendering their offspring CWA ineligible as well.

The relevant portions of the CWA's eligibility rule (Chapter 2(a), sections 10 and 13) appear below:

10. **Any dog or owner barred by AKC, CKC or any other National Kennel Club or National Purebred Racing Association is ineligible.** Ban is applicable to submitted four-generation pedigree (see #4).
13. **Must have a minimum of one Bench Champion (American Kennel Club, Canadian Kennel Club, or the equivalent competitive Bench Champion title of a foreign country) or one Dual Purpose Champion (DPC) on each side of the 4-generation pedigree.** At least one champion on one side of the pedigree MUST be no further back than the third generation (the bench champion can appear in the fourth generation on the other side). This requirement will apply to all litters born after April 1, 2015. A "competitive bench championship" is defined as a championship which requires defeating other Whippets in competition to earn the title.

The CWA also has a number of other rules regarding registration and eligibility, including this one:

The Registration Committee shall have the absolute right to refuse or rescind CWA registration numbers of any dog or bitch for cause. "Cause" in this instance includes, but is not limited to, events such as permanent removal of a dog's registration number by the original registering body (not including incidents where registration is suspended for investigatory purposes and the registration is later upheld as correct), banning of the owner or breeder by AKC, CKC or any other National Kennel Club or National Purebred Racing Association, **or any other circumstance in which the dog's pedigree is discovered to be falsified or otherwise invalid** (such cases will be investigated on an individual basis and decided by the Board as a whole). This decision shall be final and binding. (Chapter III, Registration, Paragraph 2).

The CWA Board has voted to uphold this rule as regards the all members of the litter in question, and all of their combined offspring. The owners of the dogs have been notified that their dogs have had their CWA numbers

President's Report

by Lisa Ochoa

rescinded and their titles removed.

We are fully aware of how upsetting the receipt of those letters has been for the owners, and also aware of how painful the knowledge must be that the pedigrees of those dogs are not what was reported to the AKC. Nonetheless, the fact remains that the CWA cannot continue to allow ineligible dogs to run, nor can ineligible dogs earn titles in the program.

The decision to remove the dogs and their titles also brought forth the question of whether or not it would be possible to update all of the results of meets in which the ineligible dogs ran. Unfortunately, due to the sheer number of dogs and meets involved, and the number of years they participated, any such corrections are impossible to achieve.

1. Between the members of the litter and their offspring, there are 45 dogs involved, running over the course of almost ten years, affecting the results of almost 600 meets.
2. If the ineligible dogs are removed entirely from the results, there are then quite a few meets which no longer have the same number of ARX/NARX points, and in a number of cases there are fewer than ten dogs left, rendering the meets null and void. For example, let's say that you have a meet that has 35 dogs with eight ineligible dogs running. Remove those eight dogs and you are now left with 27, so that the points on order are not only no longer the same but also there are fewer sets available. If you have a meet with 15 dogs and eight ineligible dogs running, and you remove them, you now have seven left, so no meet at all can be scored.
3. There is also the cascade effect created, because every single meet that gets changed is going to affect the points at future meets. Dogs who finished two (or more) meets later than they would otherwise, as a result of running with ineligible dogs, will then have earned their ARX titles earlier, but we then have to redistrib-

ute the points in the later meets because the dog who finished would no longer be eligible for ARX points in those meets.

4. These changes will also affect the PR points. If the dogs are removed from race by race results (which is what would have to happen) then every other dog in the meet will have its points changed, which means that all of the PR results for the past ten years will have to be completely re-run and recalculated.
5. There is no way to change any results without making the assumption that the dogs would finish in the exact same order without the ineligible dogs, just moved up a place or two. In real life, this is NOT what would happen, and especially not in really tight meets where the dogs can change places at the last second and the placements change between them at every meet they run.
6. Finally, all of these changes will have the effect of changing title points for meets that are being run right now, because there are dogs running for points that would probably have finished titles some time in the last 18 months had the ineligible dogs not been running.

The Board carefully considered the entire question, and finally voted to leave existing results alone, for all of the reasons listed.

The situation is still ongoing, and is still a heavy topic of discussion for the Board. It has been an extremely difficult and painful process for just about everyone concerned. There are NO easy answers to any of the questions, and NO easy paths to resolution. The Board is committed to making decisions based on the rules of the organization and, where no such rules exist, to make decisions that are in the best interests of the organization's future. The Board is also working to establish new rules and processes to prevent such a situation from occurring again.

2021 CWA Events

NOTICE

Due to the ongoing situation with the COVID-19 pandemic, each club will provide a plan for helping to ensure that participants stay safe while attending events. These plans are published on the [2021 Events table on the CWA website](#) in the "Additional Information" column. This requirement will remain in place until further notice. Inclusion of meet flyers in **Line and Lure** will be discontinued, with the exception of the National flyer, in order to save space. Please refer to the website for all meet flyers and safety plans. We hope that all of our participants and friends stay safe during this very worrying and stressful time..

The events listed below are still planned as of the time of publication, but may be subject to cancellation in case of changing local regulations. Please confirm with each club before finalizing plans.

CWA Website: http://www.continentalwhippetalliance.com/2021_nat_index.htm

ENTRY ELIGIBILITY INFORMATION

The CWA Annual Match is open to all AKC/CKC registered whippets

The National Race Meet and North Star Racing Meet are open to all CWA registered whippets.

If your whippet is not registered with CWA, you can find the registration form at:

<http://www.continentalwhippetalliance.com/forms.htm>

PLEASE NOTE

CWA Registration forms should be submitted to the CWA Registrar no later than **August 24, 2021** in order to allow time for processing.

DEADLINES

SEPTEMBER 10, 2021 Annual Match and National Race Meet Pre-Entry Deadline

Entries made by this date will appear in the catalog.

SEPTEMBER 17, 2021 National Race Meet & NCWFA Final Entry Deadline

No racing entries will be accepted after this date. Substitutions for lame hounds and bitches in season may be made up until 12:00 noon, Friday, September 24.

SEPTEMBER 24, 2021 Annual Match Day of Entries

Taken between 11am – 12:00 noon on the field.

LOGOWEAR DEADLINE will be announced as soon as the details become available

**If you need to cancel your entry, or make a substitution,
please notify the Race Secretary, Barb Hearley
Bhearley@yahoo.com or at 651-982-2660**

ENTRY FEES

Annual Fun Match Entries

Match Pre-Entry: \$7 per dog

Match Late Entry: (after September 17, 2021): \$10 per dog

Race Meet Entries

National Race Meet Entries (adults and puppies):

\$18 first dog, \$14 second dog, and \$10 each additional dog (same owner and household)

Legends run (100 yards, hand-slipped): \$10 per dog

Sunday (North Star Racing) Meet Entries (adults and puppies):

15 first dog, \$12 each additional dog (same owner and household)

ANNUAL FUN MATCH

Friday, September 24, 2021 • 1:00pm

Judge: Kay Nierengarten, Northwind Whippets

**Steve Shimer, Match Chair
Robin Exsted, Chief Ring Steward**

Classes (Separated by Sex)

Puppies	Adults	Veterans
Under 6 months	Yearling (12-24 months)	7-10 years
6-9 months	Bred By Exhibitor	10-12 years
9-12 months	Open	12+ years
Bred By Exhibitor	Minor Racing/Coursing	
	Titled	
	Bench Champion	
	Race Champion	

An Exhibition Class, comprised of dogs which are not being shown in the regular match – including but not limited to dogs bred by the judge, lame dogs, etc - and a class for Best Non-Whippet Pet That Could Not Be Left Behind will follow Best In Match. There will be prizes for all entries, but no placements, in the Exhibition Class.

Entry Fee

\$7 pre-entry (deadline September 10, 2021)

\$10 late entry (deadline 12:00noon September 24, 2021)

MAKING ENTRIES AND PAYMENTS

Entries will be accepted using an online form system. Please click on the link below to submit your entries.

<https://form.jotform.com/211525475022144>

Fill in one form for each dog you are entering.

NOTE: You MUST click the SUBMIT button at the bottom of each form as you complete it. If you do not click the button, then your entry will not be received.

The checklist for entries, meals, catalogs/catalog advertising, and logowear will be processed using an online form system. Please click on the link below to indicate your orders.

<https://form.jotform.com/211524340773147>

If you make an error filling out the forms, or need to make a correction after the fact, please submit this form:

<https://form.jotform.com/211546205553147>

If you have trouble with or have questions about the forms, please contact:

LMOWHIPPET@hotmail.com

If you have questions about your entries, please contact the Race Secretary: Barb Hearley bhearley@yahoo.com

ACCOMODATIONS

HOTEL/MOTEL

***Note:** The La Quinta has changed its policies and so it's been removed from the list. We have reserved blocks of rooms at both the Red Roof and the Baymont, under North Star Racing.*

Red Roof Plymouth - 763-553-1751 – 2600 Annapolis Lane North, Minneapolis, MN 55441
38 Miles from racing site, no pet fee

AmericInn Ham Lake – 612-470-5116 – 13440 Hwy 65 North, Ham Lake MN 55304
14 miles from racing site, \$30 pet fee per stay, let them know you are coming for a dog event

AmericInn North Branch – 651-243-4596 – 38675 14th Ave, North Branch MN 55056
20 miles from racing site, \$30 pet fee per stay, let them know you are coming for a dog event

Best Western Plus Blaine – 763-792-0750 -10580 Baltimore St NE, Blaine MN 55449
17 miles from racing site, \$20/night pet fee, Pet limit 2, ask for a pet friendly room

Best Western Plus - 651-429-5393 - 4940 US Hwy 61, White Bear Lake, MN 55110
20 Miles from racing site, \$10/night pet fee, Pet limit 2, but they make exceptions for dog show/events so let them know you are coming for a local show/event

Baymont Coon Rapids – 763-515-1977 - 8965 Springbrook Drive, Coon Rapids, MN 55433
20 miles from racing site, can negotiate a \$40 pet fee per stay if you let them know you are coming for a dog event

RV/CAMPING

Limited space for RVs to park on the driveway is available. Please contact Fran or Barb Hearley at fhearley@yahoo.com or bhearley@yahoo.com

Closest available off-site camping:

William O'Brian State Park - 651-433-0500 - 16821 O'Brien Trail North,
Marine on St. Croix, MN 55047 19 miles from racing site, reservations required

VETERINARIANS

Veterinary Care

South Shore Veterinary Hospital
380 W Broadway Ave
Forest Lake, MN 55025
651-464-4210

Emergency Veterinary Care

Affiliated Emergency Veterinary Services
11850 Aberdeen St NE
Blaine, MN 55449
763-754-5000

TROPHIES

Trophies for the CWA Annual Match and the CWA National will include:

Friday Fun Match:

Rosettes, stained glass and other decorative glass items

Saturday National Race Meet:

Rosettes, stained glass, decorative glass, wood and metal art items

Sunday North Star Race Meet:

Whippet statue, stained glass, leads, crate pads, toys and more

All trophy donors will be listed in the catalog. You can donate a specific trophy by contacting the trophy chair, or you can make a donation to the general trophy fund by using the [reservation/checklist form](http://www.continentalwhippetalliance.com/2021_nat_trophies.htm)

See http://www.continentalwhippetalliance.com/2021_nat_trophies.htm for the list of trophies and donation information.

For trophy or donation questions, Please contact the Trophy Chair, Barb Hearley at bhearley@yahoo.com

HOSPITALITY

Friday – September 24

Welcome Party after the Annual Fun Match! Burgers, chicken, brats prepared by Master Griller Pat Reynolds, salads prepared by master salad-tosser, Lisa Ochoa. Sides and desserts provided by potluck and extras by the National Food Committee. Bring your own beverage.

Saturday – September 25

Continental Breakfast: A continental breakfast including coffee, biscuits and gravy, fruit, yogurt, and other breakfast goodies will be available at the field.

Lunch: Lunch will include sandwich fixings, sides and desserts.

Awards Dinner: BBQ Buffet with Texas Beef Brisket, Country Roasted Chicken, St Louis Style Spareribs, garlic red-skinned mashed potatoes, barbequed beans, salad, buns and corn muffins. There is a \$22/person charge for the awards dinner.

Sunday – September 26

Continental Breakfast: A continental breakfast including coffee, biscuits and gravy, fruit, yogurt, and other breakfast goodies will be available at the field.

Lunch: Lunch will include sandwich fixings, sides and desserts.

Bottled water and pop will be available Saturday and Sunday

**Potluck and Monetary Donations
gladly accepted and greatly appreciated!**

CATALOGS

Catalogs will be available at a pre-order price of \$10.00. A limited number will be available at the National. Please pre-order by September 10.

Catalog advertising is welcome and encouraged. The back cover is available for a color advertisement. All other ads are in black and white. There is NO CHARGE for ad setup.

CATALOG ADVERTISING

Full Page Ads - \$25.00

Half-Page Ads - \$15.00

Inside Covers (front and back) \$50.00

Back Cover \$75.00 (color)

Advertising Deadline – September 10, 2021

Contact: Lisa Ochoa at LMOWHIPPET@hotmail.com

Shipping of Catalogs and Logowear

Catalogs and Logowear can be shipped AFTER the National for actual postage for pre-ordered items only. If you want to order these things but cannot attend, please get in touch with Barb Hearley to arrange for shipment.

RAFFLE

Raffle tickets are available by pre-order for the discounted price of \$18 for 40 tickets. **THE DEADLINE FOR PRE-ORDERS IS SEPTEMBER 17.** After that, tickets will only be available on site, and 40 tickets will cost \$20. Tickets will be sold in other denominations at that time.

Donations for the raffle table are welcome and greatly appreciated. Those who donate baskets will receive TEN FREE RAFFLE TICKETS. If you wish to mail an item for the raffle table, or for more information on the raffle, please contact Raffle Chair Jennifer Hart-Abraham by email at Hart-abraham@comcast.net

Donations from vendors are welcome. Vendor donations will be recognized in the catalog if items are pledged/received by the catalog closing date of September 10.

VENDORS

All vendors large and small welcome. No fees. Please let us know how much space you will need. Depending on the number of vendors and space needed, we'll set up in the front by parking or in back by the show ring.

LOGOWEAR

Arrangements are still being made for logowear. Photos and order details will be posted as soon as they become available.

NOTICE OF CWA EXECUTIVE ORDER EFFECTIVE 5-20-2021

The CWA will immediately require that ALL dogs that meet either of the conditions below be required to provide DNA profiles on both the dogs requesting CWA registration and their parents:

1. Any dog with a Debmar dog of any breeding in a 4-generation pedigree
2. Any dog with one or more open straight racing champions in a 4-generation pedigree (open straight racing champions defined as dogs running in any program which does not check for all disqualifying faults as defined in the AKC standard)

This order becomes effective as of Thursday, May 20, 2021.

A permanent rule regarding a DNA profile for all CWA registrations will be written and voted on before January 1, 2022.

TO PROFILE OR NOT TO PROFILE

by Donna Miner • Domino Whippets

Introduction

It isn't long after joining the whippet fancy that new members begin to hear rumors of pedigree irregularities in whippets. Very often, the stories are big on shock value and feature well-known personages in the breed. Such stories are not restricted to just one area of interest. Both show and performance factions within the breed feature prominently among them. Factual or not, these stories pique the interest of most new exhibitors and have provided continuous fodder for the gossip mill for decades!

Any exhibitor who tries to learn the facts behind such rumors is usually treated to lots of speculation, typically colored by the bias of their source. So very few people have documented evidence related to well-known cases that stories have become almost legend. The telling of such stories tends to either condemn or exonerate those accused of perfidy without any proof whatsoever. Newbies have tended, without reservation, to believe their mentors. Thus, they line up on one side or the other with regard to believing the tales. The unfortunate result had been continuous and gruesome division in the fancy.

Historical Perspective

With DNA parentage science almost 50 years old, one would think that the answer would be simple. Everyone should just test, right? Unfortunately, it's one of those situations where no consensus in the whippet fancy has ever been reached.

Back in the 1990s, there was chatter on internet lists with regard to using DNA profiles to verify parentage on puppies. Because the dog community came late to DNA profiling, we were in our infancy with regard to this technology while breeders of other species (cattle, horses, etc.) accepted the science and surged ahead. Due to our inexperience, many untruths were told about the process that still float about on Facebook groups to this day. One such myth is that people can cheat on DNA profiles by substituting dogs. Another is that a profile is only valid if the collection process is witnessed by a reputable person, such as a veterinarian. As a result, voluntary DNA sample submission became the subject of ridicule, with some incredibly vocal people insisting that DNA cheating would become a standard practice.

Acceptance of DNA profiling as a standard procedure was complicated by the fact that many established breeders pooh-poohed the concept of DNA profiles in the belief that their long-term reputation as responsible breeders protected

them from challenges to their dogs' pedigrees. It was deemed sufficient to avoid people of "bad reputation" through the process of using references.

As a result, voluntary submission of DNA samples became fairly rare, with the majority of profiles being the result of AKC-required submission in instances involving frequently-used sires, imported dogs, frozen semen collection, multiple-sired litters.

A Personal Journey

Like most people starting out in the breed, I heard the rumors and, also like most new people, I tended to align my opinions with those of my early mentors. After all, who can you trust if you can't trust your mentors?

Having swallowed a set of beliefs without question, it never occurred to me that I might become the target of similar rumors someday, despite making every effort to do things 100% on the up-and-up. But, when I had been in the breed for over 10 years and experienced a bit of success, I was to become the target of some sharp-tongued gossip.

It began when one of my males was invited to sire a litter. Before the litter was even born, nasty rumors were floated which implied that a different dog had actually provided the stud service and that my dog was merely used as a "placeholder" in the

pedigree of the litter, purportedly to cover the use of another animal, a dog which was in my care but did not own. The breeder of the litter was horrified by these allegations and, to protect her professional reputation, she insisted on AKC DNA profiles on both sire and dam.

At the time, I felt this breeder was being oversensitive to wild gossip, but looking back on the situation, I am very grateful for her wisdom in insisting on AKC DNA profiles. Her insistence on documentation was the inspiration for my thoughts with regard to defending the integrity of one's work in the breed.

Chances are, no one will ever object to any particular dog, UNTIL that dog happens to become a big winner or goes on to produce big-winning offspring. Despite every breeder making an effort to produce pups that will succeed, no one can ever predict when lightning will strike and that big winner will be the result of their efforts. When and if that happens, a breeder will suffer considerable angst should allegations of pedigree fraud be directed their way!

Proactive, systemic defense

In 2010, I elected to become more proactive and to submit voluntary AKC DNA profiles on all intact whippets in my home. I did a few at a time so that the expense wasn't overwhelming. Establishing definitive identities on each intact animal was a relatively inexpensive means of ensuring protection for my breeding program and reputation. A year later, I expanded my AKC DNA profile submissions to include a bitch I leased from another breeding program and as many of her direct living ancestors as were available to be sampled. It became apparent to me that I should collect this data whenever the opportunity presented itself, as the opportunity might not come my way again. In addition, I was concerned that collection be made while the dogs were still alive to be profiled, as the opportunity to collect samples is generally gone once the dog is deceased.

In 2012, I began to bring AKC DNA profile kits to any breeding and to collect samples on any dog used at stud immediately upon completion of the breeding. Then, two years later, AKC DNA profiles became a standard requirement for any bitch put to one of my stud dogs. And if that bitch had living direct ancestors that could be sampled relatively

easily, I would collect their samples, as well. By this time, I began to compete with the Continental Whippet Association. As most whippet people are aware, this program uses the dog's pedigree to determine eligibility to participate. So, when pedigree determines eligibility, it is critical that pedigrees be accurate.

My personal concern about CWA participation revolved around my breeding program being a blend of showbred and racebred lines. My dogs have CWA banned lines back behind the 4-generation pedigree used to assess eligibility, so it seemed wise to demonstrate that my dogs were exactly what their pedigree claimed, insofar as I was able.

As a result, I began to AKC DNA profile AND microchip every puppy produced by my breeding program as well as any stud puppy that I brought back into my breeding program. I did this as an act of good faith so that incontrovertible proof of each pup's identity could be established. In the event of a challenge, I felt it was desirable to be able to show proof of accurate records.

Although AKC considers DNA profiles to be "private" and releases only a dog's DNA profile number through their database, I considered it prudent to be transparent with my dogs' profiles. I opted to make my profiles public on my website and visible in the Whippet Health Foundation database. This makes my breeding program an open book. There is no need for anyone to look askance at my dogs' pedigrees. The documentation is publicly available and beyond question.

Facing the Challenges

No doubt, some of you may think that this is only an interesting story, but has little application in real life. However, I can assure you otherwise. I have personally defended against two pedigree challenges since I began to profile my stock.

Please read Case Study #1 and Case Study #2 on the following pages. Then, ask yourself if you would be prepared under similar circumstances.

CASE STUDY #1 – MISIDENTIFICATION OF SAMPLE

THE AMERICAN KENNEL CLUB
DNA PROFILE

ROSMOR RATATOUILLE

Breed: Whippet
Sex: Male
Date of Birth: March 24, 2009
Registration #: HP338238/07
Date of Analysis: June 23, 2009
Owned by: Donna Miner

DNA Profile #: V568896

The following genotype uniquely represents the MMI Genomics certified genetic identity of the dog named herein:

0905415 10P10020007

CD DMAD FF DD DF CC AB BE BB CC DE BD XY

Margaret H. Piusdesse, Assistant Vice-President
American Kennel Club

Dennis Funtin, Ph.D., MBA
MMI Genomics, Inc.

This is a profile for our dog, Remy. It is easy to see that he was profiled when he came back to my kennel as a stud puppy. Remy was whelped in March '09. He was DNA profiled in June '09. (The DNA profile process typically takes about 8 weeks.)

When his profile was processed by AKC, it was checked against both his DNA profiled parents and was verifiably the offspring of the parents recorded in his pedigree.

No problem, right? One would think that would be the last word, but in October 2018 (NINE years later), we received a letter from the AKC challenging his parentage. PAY VERY CLOSE ATTENTION to the paragraphs highlighted with stars!

I can assure you that it is absolutely terrifying to receive a letter of this nature. It twists your gut and gives you heart palpitations! And the cognitive disconnect, when you are holding a previous document that indicates all is well and a later document challenging the first finding? Well, it gives a person a serious case of head jam.

AMERICAN KENNEL CLUB

October 22, 2018

Ms. Donna Miner
15 JOSHUA LN
COVENTRY, CT 06238-1267

Reference Number: 201805907
Whippet Litter HP338238
Sire: Wheatland Bengal, HM733686/01
Dam: Rosmor Delta Breeze, HP106944/03
Date of Mating: 01/20/2009
Date of Birth: 03/24/2009

Dear Ms. Miner:

A parentage verification analysis of American Kennel Club ("AKC") DNA Certifications from the sire and one or more members of litter HP338238 was conducted. We regret to inform you that the DNA results indicate that, Rosmor Lucy In The Sky, HP338238/08, is excluded to (cannot be the offspring of) the registered sire.

As a result, litter HP338238, its members, and their offspring have been placed on referral. This means that American Kennel Club services will not be provided if the dogs in this litter are bred, sold, or transferred, and awards will not be recorded if these dogs participate in any American Kennel Club sanctioned or licensed events. Recorded owners have been notified.

We are requesting that you provide us with the following:

- A list of all intact males and their AKC registration numbers that were present at the time of mating
- Where the mating took place
- A copy of the litter/breeding records
- Any additional comments regarding this matter

Litter HP338238 can be reinstated provided that additional DNA testing of the correct sire, dam and remaining pups determines correct parentage. If we do not receive a written response from you by (November 21, 2018) or correct parentage cannot be established, the

8951 Arco Corporate Drive Suite 100, Raleigh, NC 27617 Tel 919 816-3829 www.akc.org

★ *Animals from the litter in question will not be provided with AKC services if they are bred, sold, or competing in AKC events!*

★ *AKC will evaluate the litter to see if it meets the requirements for Conditional Registration!*

★ *Discipline policies of the Compliance Audit Program may apply to the excluded litter and additional excluded litters resulting from my breeding program within 5 years will be presented to the Management Disciplinary Committee for appropriate action!*

Ms. Donna Miner Page 2

★ AKC® will evaluate the excluded litter to determine if it meets the conditional registration program requirements (<http://www.akc.org/condreg>). Be sure to include the above referenced case number in your reply. Please contact the Order Desk at (919) 233-9767 for additional DNA kits.

In addition, the sire referenced above falls under the Frequently Used Sires DNA Requirement, and as such, the discipline policies of the Compliance Audit Program may apply to this excluded litter. Therefore, as the sire owner, if you have any additional excluded litters in a five-year period, the American Kennel Club, under the provisions of Chapter 4, Section 6 of "The Rules Applying to Registration and Discipline" will not "register any dog or litter or...record the transfer of the dog..." Further, the matter will be presented to the Management Disciplinary Committee for appropriate action.

Sincerely,
Judy Rivezzo

Judy Rivezzo
DNA Operations Department

JXR
Enc.

These are some seriously daunting threats that should not be ignored, should a person receive such a notice. Conditional Registration is a serious threat to a breeding program. And the Management Disciplinary Committee can impose some onerous sanctions on an AKC participant.

CASE STUDY #1 – CONDITIONAL REGISTRATION FAQ

What is Conditional Registration?

Conditional Registration is applied to a dog that has one or more unknown ancestors, generally because incorrect parentage has been discovered via compulsory DNA programs (Frequently Used Sire requirement or the Compliance Audit Program). Conditional Registration is only applied if the dog(s) in question appear to be purebred, but a registered parent is found to be incorrect and the correct parent cannot be determined.

Why is Conditional Registration applied rather than simply cancelling registration?

Due to the Frequently Used Sires requirement, some popular sires are not profiled until they are older and have sired 7 or more litters. When the AKC evaluates the dog's parentage (a routine check), if incorrect parentage is found, it can sometimes be impossible to determine correct parentage, as potential parent(s) may be deceased or be unable to be located. A single instance of an unknown sire can affect the registration of hundreds of descendants. Needless to say, this creates a very strong response from the many owners affected by any change.

Conditional Registration keeps the affected dogs inside the AKC program, albeit at reduced status. It also allows for informed breeders to be able to use these dogs wisely to maintain genetic diversity in the breed.

How is it designated?

A Conditional Registration number will start with the letter 'Q'.

This is a sample Conditional Registration certificate. Note the Yellow border, the Q prefix on the registration number, and the words "CONDITIONAL REGISTRATION CERTIFICATE" at the bottom of the border.

AMERICAN KENNEL CLUB

NAME: SAMPLE DOG RUN THE FIELD

DATE OF BIRTH: JANUARY 1, 2003

AMERICAN KENNEL CLUB

CERTIFICATE ISSUED
MARCH 12, 2003

This certificate invalidates all previous certificates issued.
If a date appears after the name and number of the sire and dam, it indicates the issue of the Stud Book Register in which the sire or dam is published.
For Transfer Instructions, see back of Certificate.
This Certificate issued with the right to correct or rework to the American Kennel Club.

CONDITIONAL REGISTRATION CERTIFICATE

Similar markings will be on an AKC pedigree for any dog that is conditionally registered. The unknown ancestors are clearly marked.

What does it mean to your dog(s)?

Any dog with Conditional Registration is restricted from participation in AKC Conformation and Field Trials. The dog may also be restricted from competing in programs with pedigree restrictions, like CWA, or programs requiring regular AKC registration, like ASFA, WRA, and NOTRA. Titles in AKC Conformation and AKC Field Trials which were earned prior to demotion to Conditional Registration will be revoked. Titles earned in restricted pedigree events, like CWA, are likely to be revoked, as well. It is unknown how WRA, NOTRA, and ASFA, would respond to dogs demoted to Conditional Registration. This does not appear to be specified in their rules, as it is a situation that has not yet arisen.

However, dogs that are conditionally registered may participate in events that are open to dogs with ILP/PAL registration numbers, such as Obedience, Agility, FastCAT, CAT, and other events.

How does it affect your breeding program?

Dogs that are conditionally registered can continue to be used in a breeding program, so long as the issue of unknown parentage in the pedigree is fully disclosed. Offspring from Conditionally Registered animals will also have Conditional Registration until a full three-generation DNA-verified pedigree is achieved, at which point, the offspring will revert to full registration status.

CASE STUDY #1 – AKC MANAGEMENT DISCIPLINARY COMMITTEE

What is the AKC Management Disciplinary Committee (MDC)?

The "Charter and Bylaws of The American Kennel Club, Inc." (full text at <https://images.akc.org/pdf/rulebooks/RCNA01.pdf>) give the AKC Board of Directors broad authority to investigate, or appoint a committee such as the MDC to investigate, matters are brought to their attention relative to the mission of the AKC and the precepts upon which it was founded. The Board of Directors may prefer charges when an investigation results in sufficient evidence to warrant such action.

What are the possible penalties for infractions?

SUSPENSION OF ALL AKC PRIVILEGES (continued)

OFFENSES	MITIGATED	STANDARD	AGGRAVATED
II. Registration Violations			
a. Submission of a false application to register or transfer (not signature forgeries), which affect the Stud Book®	3 yr/\$500	5 yr/\$1000	Up to life/up to \$5000
b. Selling or buying AKC registration papers®	5 yr/\$500	10 yr/\$1000	Up to life/up to \$5000
c. Refusing to produce dogs or records®	6 mo/\$500	5 yr/\$1000 ¹	Up to life/up to \$3000 ¹
d. Non-compliance with AKC's Rules and Regulations on Record Keeping and Identification	Rep/up to \$50	6 mo/up to \$500	Up to life/up to \$3000 ²
e. Submission of an AKC litter application which the individual should have known contained a false certification as to the sire and/or dam of the litter (DNA exclusion)®	<u>2 Exclusions/5 yrs</u> 6 mo/\$500	<u>3 Exclusions/5 yrs</u> 1 yr/\$1000	<u>4 Exclusions/5 yrs</u> Up to 5 yr/up to \$2000

¹ If reinstated, must start with a new colony or in lieu thereof, bring back dogs from the old colony for which a DNA profile is recorded with the AKC and is positively identified via microchip or tattoo.

² The actual fine assessed shall be sufficient to cover all reinstatement costs, but in no instance shall it exceed the maximum amount indicated.

This is a subset of the entire spectrum of disciplinary actions that may be imposed for violations. For further information about the process, consult the AKC Discipline Guidelines. It is important for all participants in the AKC program to understand not only the possible offenses that might merit discipline, but the factors that are considered in imposing penalties, as they can be very serious.

https://images.akc.org/pdf/AKC_DISCIPLINE_GUIDELINES_7.12.2016.pdf

How are disciplinary actions reported to the fancy?

Information on disciplinary actions is reported monthly on the AKC Secretary's Page:

<https://www.akc.org/about/minutes-reports/secretarys-page/>

In this case, we received a very quick follow-up letter from AKC about a week later that cleared things up. Apparently, someone submitted a profile with an erroneous registration number. The sampled dog was NOT actually a littermate to our dog, so of course the DNA was a no-match. Because we had successfully profiled our dog much earlier, he and his profiled littermates were reinstated immediately.

Perhaps this example can give one an idea how quickly things can go sour and how far beyond your control it can be. If you take no measures to protect yourself, your dogs and your breeding program, you can quickly find yourself in serious hot water.

Although this situation was the result of an honest error, it is not beyond imagining that a misidentified sample could be submitted with malicious intent. The only defense against both error and malice is proactive DNA profiling of one's stock at the earliest opportunity.

AMERICAN
KENNEL CLUB®

November 4, 2018

Ms. Donna Miner
15 JOSHUA LN
COVENTRY, CT 06238-1267

Reference Number: 201805907
Male Whippet Rosmor Ratatouille HP338238/07
Litter Number: HP338238
Sire: Wheatland Bengal, HM733686/01
Dam: Rosmor Delta Breeze, HP106944/03

Dear Ms. Miner and Ms. Bennett:

This is a follow up to our letter dated October 22, 2018, concerning the registration of your dog as listed above.

As indicated in our letter, one or more pups in the litter of which your dog is a member is excluded to (cannot be an offspring of) its registered sire. Based on the submission of additional DNA samples and documentation, we understand that the identity of the excluded member was due to a misidentification of the sample submitted for the dog and not the parentage of the litter. Through additional DNA testing, we have verified the correct identity of the dog.

As a result, we have reinstated the registration of litter HP338238 and its offspring. Since your dog is a member of litter HP338238, we have reinstated the registration of your dog. All necessary corrections in our DNA database have been made and we consider this matter closed.

Thank you for your cooperation and patience in this matter.

Sincerely,

Brandi Flock

Brandi Flock
DNA Operations Department

CASE STUDY #1 – AKC DNA PROFILE KITS

What they ARE:

- A means to establish the unique genetic identity of the dog
- Used for parentage verification

What they ARE NOT:

- Not intended to determine the dog's breed or whether a dog is purebred
- Not used to determine genetic health
- Not used to determine appearance or performance traits

Where can I get an AKC DNA Test Kit?

- Kits can be ordered through the AKC website at this address:
<https://shop.akc.org/products/akc-dna-test>

What is the COST of this test?

- Regular AKC DNA Kit - \$50
 - Prepaid/Nonrefundable - \$45
 - Special rate for new titleists (within 30 days of receiving an AKC title in the mail) - \$35
- Follow the instructions on the coupon on the back of the Letter of Congratulations that comes with your title. You will be asked for information contained on the letter, so keep it handy when you call. If you ask nicely, they will sell you TWO kits at the reduced price.
- NOTE: Kits ordered under the special offer may be used on any dog you choose and they do not expire.

Where is the VALUE in this test?:

- The puppy buyer benefits by knowing that parents are profiled, so that true parentage can be guaranteed by the breeder.
- Enormous value to the breeder, as indisputable proof that the parentage of their puppies is verifiable. The more generations a breeder has profiled, the stronger the proof of pedigree accuracy becomes. This is proof of breeder integrity that goes the extra mile beyond "reputation". This is a permanent record, maintained by the AKC and visible through the AKC database, surviving beyond the breeder's career in the breed.

How long does it take to get RESULTS?

- Generally, results are returned in about 8 weeks.
- If results are taking longer than 8 weeks, this may indicate a problem with your test. The most frequent problem is that the sample sent in was insufficient. In this case, AKC will send a Resample Kit (no charge), but this will take another 8 weeks.
- Helpful hint: Record the date you mail your sample so that you can estimate when you will receive results.

What does the kit look like?

Contents include:

- Instructions
- Submission Form
- Two Swabs in Sleeves
- Return Envelope (Extra postage required!)

CASE STUDY #1 – AKC DNA PROFILE KITS

What is the collection process?

The American Kennel Club DNA Profiling Program

DNA Sample Collection Procedure

YOUR DNA KIT contains all of the materials necessary to collect DNA samples from your dogs for the AKC® DNA Profiling Program. For the best results, **withhold all food at least one hour** before collecting the samples and **make sure mouth is clean**. Fill in the information on the DNA Swab envelopes before beginning the collection procedure. Complete steps 1 through 7 for one dog at a time to avoid mixing up the samples. There is a video on the DNA page on the AKC web site that demonstrates the procedure.

◀ step one

- | | |
|---------|--|
| one > | OPEN THE SWAB PACKAGE BY PEELING BACK THE LOOSE EDGES OF THE CHEEKSWAB SLEEVE ABOUT ONE INCH. |
| two > | GRASP THE SWAB'S PLASTIC HANDLE AND PULL THE SWAB OUT. HUMAN CELLS WILL NOT CONTAMINATE THE BRUSH. DO NOT WORRY IF YOU ACCIDENTALLY TOUCH THE BRISTLES ON THE BRUSH. |
| three > | STEADY YOUR DOG'S HEAD. YOU CAN HOLD THE DOG'S HEAD FIRMLY AGAINST YOUR BODY WITH ONE ARM, HAVE A FRIEND STEADY THE DOG, OR SIMPLY HOLD ITS HEAD IN YOUR HAND (WITH SMALLER BREEDS) WHILE YOU TAKE ITS SAMPLE. |

step three >

The American Kennel Club DNA Profiling Program

◀ step four

- | | |
|---------|--|
| four > | PLACE THE SWAB INTO THE DOG'S MOUTH AGAINST THE INSIDE SURFACE OF THE CHEEK. WHILE APPLYING LIGHT PRESSURE WITH YOUR THUMB FIRMLY ROTATE THE SWAB AGAINST THE DOG'S CHEEK FOR ABOUT 10 TO 20 SECONDS. THE OBJECT IS TO COLLECT LOOSE CHEEK CELLS NOT SALIVA. |
| five > | IMMEDIATELY REINSERT THE SWAB INTO THE CHEEKSWAB SLEEVE (NO NEED TO SEAL THE SLEEVE). |
| six > | PLACE THE CHEEKSWAB SLEEVE INTO THE DNA SWAB ENVELOPE AND SEAL THE ENVELOPE. |
| seven > | SIGN YOUR NAME OVER THE BACK FLAP OF THE DNA SWAB ENVELOPE. |
| eight > | RETURN THE SAMPLES WITH THE SAMPLE SUBMISSION FORM AND YOUR PAYMENT IN THE RETURN ENVELOPE INCLUDED IN THE DNA KIT. |

CASE STUDY #2 – SAMPLE COLLECTION ERROR

Routine Sample Submission

Woodford came to our home as a stud puppy in September 2014. The first thing we did after registering him was to submit a DNA profile kit to the AKC, as it had become routine to submit a profile for every dog coming into our home .

When the results were severely delayed, taking almost double the normal time to come back, I should have been alerted to an irregularity. Woodford's profile arrived along with a letter. Shown below and the following page.

CASE STUDY #2 – SAMPLE COLLECTION ERROR

Bad News from AKC

I had to read this letter three or four times before it sunk in. This breeding was a frozen AI breeding. The pup matched his sire, but not his dam. WHAT??? We had photos of the dam with the puppies! There was only one litter in the breeder's home. How could this possibly be a mismatch?

The AKC DNA Department rep suggested that there might be more than one litter in the home and the pup might belong to another litter. Not terribly helpful, as there was only one litter. And only enough semen sent to impregnate one bitch. We immediately sent a second kit to test Woodford again. Silly us. DNA always comes back the same, no matter how often a dog is tested.

CASE STUDY #2 – SAMPLE COLLECTION ERROR

Breeder Reaction and Peer Responses

Understandably, Woodford's breeder was incredibly upset by this notification from the AKC. They required an explanation in response to their communication to her. Having diligently bred a leased bitch with a DNA profile on record and using semen from a dog with a DNA profile on record, she had no explanation for the findings. It was definitely a letter to roil the gut and to provoke heart palpitations!

This notification was followed by another letter from AKC notifying us of an inquiry to be conducted into the matter. The threat of having the entire litter registration downgraded to "conditional registration" if the anomaly could not be resolved was distressing to breeder and puppy owners, alike. Conditional Registration is very much a worst case scenario, something that I wouldn't wish on anyone!

COVENTRY, CT 06238-1267

Reference Number: 201502354
Male Whippet Wildabout Woodford HP479735/02
Litter Number: HP479735
Sire: Domino Pop Goes The Weasel, HM892505/01
Dam: Sailaway Wilpen Avanti Vin, HP295903/02

Dear Ms. Miner:

A parentage verification analysis of American Kennel Club ("AKC®") DNA Certifications from the registered sire, dam, and Wildabout Woodford, HP479735/02 was conducted. We regret to inform you that the DNA results indicate that your dog is excluded to (cannot be the offspring of) the registered dam.

As a result, the registration of your dog and the registrations of his offspring have been placed on referral. This means that American Kennel Club services will not be provided if the dogs in this litter are bred, sold, or transferred, and awards will not be recorded if these dogs participate in any American Kennel Club sanctioned or licensed events. Recorded owners have been notified. We regret the necessity of taking this action. **Please be advised that this inquiry does not imply incorrect parentage or incorrect identity for any offspring that Wildabout Woodford may have sired.**

The litter owner has been informed that Litter HP479735 can be reinstated provided that additional DNA testing of the correct sire, dam and remaining pups determines correct parentage. If correct parentage cannot be established, the AKC® will evaluate the excluded litter to determine if it meets the conditional registration program requirements (<http://www.akc.org/condreg>). We can only suggest that you contact the breeder from whom you purchased your dog for additional information. All recorded owners will receive written notification at the conclusion of this inquiry.

Ms. Donna Miner

Thank you for your patience in this matter.

Sincerely,

Glenn E. Lycan
Director, Customer Relations & DNA Operations

CASE STUDY #2 – SAMPLE COLLECTION ERROR - AKC PROFILE EVALUATION

This insert is included with every DNA Profile that is returned to a submitter so that they can understand the process.

AMERICAN KENNEL CLUB
FOUNDED 1891

Understanding Your AKC® Profile

Thank you for participating in the AKC DNA Profile Program. Enclosed is an AKC Letter of DNA Analysis containing the AKC Profile for the dog listed. The information below is intended to help you understand, interpret, and apply the results you have received. Please note - the genotype for your dog does not verify his/her parentage. Parentage is only verified by comparing the DNA profiles for the sire, dam and pup.

The enclosed DNA Profile shows the SuperPlex-G panel of DNA markers. A gender marker has been included to provide a quality assurance check on the results (GEN). This gender marker will show as XY for a male and XX for a female.

AKC DNA Profiles (genotypes) are generated using the same technology used by law enforcement agencies throughout the world. How does this work? In humans and dogs alike, each gene is present as two copies called **alleles** (displayed as letters below). Offspring receive one copy of each gene from each parent in a random process. This genotyping technology does not use actual genes, but other DNA sequences referred to as **markers**, that are also inherited one copy from each parent. Because markers are not functional genes, the AKC DNA Profile does not provide any information about the conformation of the dog, the presence/absence of genetic diseases, or any information about the breed of a dog. AKC DNA Profiles are used solely for genetic identity and parentage verification purposes.

Using Genotypes for Genetic Identification and Parentage Verification – An Example

Marker:	PEZ 01	PEZ 03	PEZ 05	PEZ 06	PEZ 08	PEZ 12	PEZ 20	UCB 2010	UCB 2054	UCB 2079	PEZ 16	PEZ 17	PEZ 21	GEN
Sire	BE	FG	BC	HH	EE	HH	GI	BB	CD	AA	AG	CD	BK	XY
Dam	BF	DG	BC	DG	EE	GG	II	BB	CD	AB	DE	AB	EF	XX
Pup 1	EF	DG	CC	DH	EE	GH	GI	BB	CD	AB	AE	AD	BF	XY
Pup 2	BF	DG	BB	DH	EE	GH	GI	BB	CD	AA	AE	BC	BE	XX
Pup 3	CD	BE	BB	DD	EE	CH	GI	BB	CD	AA	CD	AC	AB	XX

Glossary:
Genotype: genetic constitution or makeup; **Gene:** the basic unit of heredity made of DNA; **Allele:** different forms of a gene. Each parent contributes one allele for each gene pair; **Marker:** a stretch of DNA that is not a gene, but is inherited the same way as a gene; **Markers** are labeled as PEZ01, PEZ03, etc., above and on the DNA Profile.

Unique Identification: If we look at the genotype of the sire at PEZ01 (BE) and the dam at PEZ01 (BF), we see that they share the B allele, and the second allele of this marker is different (E for the sire, F for the dam). We can continue this to PEZ03, where the sire has FG, and the dam, DG. Again, they share the G allele, but the sire has an F, and the dam, a D. At PEZ05, they have the same alleles. Considering the remaining eleven pairs of markers, we see three more are the same (PEZ08, UCB2010, and UCB2054), but, the dogs have different genotypes. The genotype is unique like a fingerprint, and the chance of genotypes matching is less than one in a million.

An empty marker: Occasionally, the information at one marker on the profile will be empty. This means that the genotype at that marker could not be determined. It does not imply anything negative about your dog. The remaining markers provide enough information to establish identity and determine parentage for the vast majority of cases.

Gender: The last marker in the AKC DNA Profile (labeled GEN) tests for a gene on each sex chromosome. Males will show XY and females will show XX for these markers. These gender markers provide an added level of quality control to the DNA Profile process. The same principles of inheritance work with the gender marker exactly the way they do with the other tested markers. The dam contributes an X marker/chromosome to the offspring, and the sire contributes either an X or Y.

Parentage verification: At the first marker, the sire can contribute either a B or E to each pup, and the dam can contribute either a B or F. Pup 1 has EF (E from the sire, F from the dam). Pup 2 has BF (B from the sire, F from the dam). Pup 3 has CD, neither of which are present for the sire or the dam. When an allele from the sire or dam does not match with the pup, this is called an exclusion. If we continue this analysis across all fourteen markers, we see that the alleles for pups 1 and 2 are consistent with them being the offspring of the sire and dam (they are *included*). Pup 3, however, is *excluded* at six markers (underlined in the chart), showing that this pup cannot be the offspring of the sire and dam tested. In some instances, a pup will have an exclusion at only one marker. A single marker exclusion may be the result of a mutation event and, from a statistical standpoint, does not provide sufficient evidence to conclusively rule out parentage. Parentage of a sire/dam is considered excluded when the alleles at two or more markers are excluded.

Genotype Analysis Table

Use this table to compare the genotypes of your dogs. You will see that each dog is unique, and you will be able to analyze parentage. Simply write in the letters of your dog's genotype in the order in which they appear on the DNA Profile, as shown in the example below. Then compare the results for each pair of markers. At each marker for a pup, the sire contributes one allele (letter), and the dam contributes one allele (letter). Therefore, the pup should have one allele or the other from the sire and the dam.

Example																																		
B	C	B	B	B	A	C	F	C	D	E	E	N	Q	I	K	D	F	A	G	C	E	B	B	X	Y

Dam																																		
Pup																																		
Pup																																		
Pup																																		

If you would like the AKC to evaluate the parentage of a dog or litter for you, we offer a **Parentage Evaluation Service**. Based on AKC DNA Profiles, a DNA Analyst will examine the profiles of sire, dam and pups and issue an evaluation of the parentage. The cost is \$40 per litter. This fee does not include the processing cost of DNA Profiles.

AKC DNA Operations
PO Box 900065, Raleigh, NC 27675-0065

www.akc.org

©2010 The American Kennel Club, Inc. GDNA07 (03/12)

According to the AKC, more than one mismatch rules out a parent. So, quite obviously, in this case, something was very wrong. Woodford's DNA profile, when compared to those of his parents showed him excluded to his dam at 7 locations.

Initial DNA Comparison of Dam to Woodford														
	PEZ 1	PEZ 3	PEZ 5	PEZ 6	PEZ 8	PEZ 12	PEZ 20	UCB 2010	UCB 2054	UCB 2079	PEZ 16	PEZ 17	PEZ 21	GEN
Sire	C D	N N	A A	E F	C D	D E	C D	B B	C E	A B	C D	D E	B D	X Y
Dam	C D	K N	A A	E F	C E	G H	C C	B B	C C	A B	C G	B C	E E	X X
Woodford	C D	N D	A A	C E	D D	D G	C D	B B	A C	B B	D E	D D	B E	X Y
	Dam no match			Dam no match			Dam no match			Dam no match			Dam no match	

In order to try to resolve the issue, I went back to my DNA records. As mentioned earlier, I had begun to collect profiles on direct ancestors of dogs that we bred to, if the dogs were alive and accessible for sampling. In this case, I had acquired a DNA profile on Woodford's maternal granddam before Woodford's profile was even submitted.

CASE STUDY #2 – SAMPLE COLLECTION ERROR - AKC PROFILE EVALUATION

It was a simple matter to compare her profile to her daughter (Woodford's dam). In so doing, we discovered that not only did the dam not match Woodford, but neither did she match the maternal granddam! Note the exclusions at two locations.

Initial DNA Comparison of Granddam to Dam																													
	PEZ 1		PEZ 3		PEZ 5		PEZ 6		PEZ 8		PEZ 12		PEZ 20		UCB 2010		UCB 2054		UCB 2079		PEZ 16		PEZ 17		PEZ 21		GEN		
Granddam	A	C	E	K	A	A	C	C	D	D	G	G	C	C	B	B	A	C	B	B	G	G	C	E	B	E	X	X	
Dam	C	D	K	N	A	A	E	F	C	E	G	H	C	C	B	B	C	C	A	B	C	G	B	C	E	E	X	X	
										No Match		No Match																	

Once we were aware of this mismatch to both granddam and offspring, it was a simple matter to respond to the AKC.

I worked with the breeder to craft a response demonstrating this double mismatch. It was important that we point out to AKC that they had the profile on the granddam, as she was CKC registered, but not AKC registered. It required a bit of checking on their part to verify this information.

In addition, we submitted a retest for the dam and initial tests on the other three pups in the litter. Evidently, our response piqued the interest of the AKC DNA investigation team. We were told that they pulled the DNA profiles of every whippet that was submitted the same day as Woodford's dam was initially profiled. Apparently, there was a fairly large number submitted that day, as the result of a DNA Profile Clinic that was held at a whippet event.

At long last, resolution!

We were stunned to learn that the AKC investigator found a profile among those submitted that day that was not only a match for Woodford, but also for his maternal granddam! In an interesting plot twist, the profile was recorded as belonging to a spayed bitch that had the same owner as Woodford's dam. It was clearly a case of the samples being placed into the wrong envelopes.

The AKC corrected the record by switching the two profiles to the correct two animals and reissuing the certificates. Once this was done, it was easy to see that the profiles were perfectly matched, with zero exclusions, between granddam, dam, and offspring.

Final DNA Comparison of Granddam to Dam																													
		PEZ 1		PEZ 3		PEZ 5		PEZ 6		PEZ 8		PEZ 12		PEZ 20		UCB 2010		UCB 2054		UCB 2079		PEZ 16		PEZ 17		PEZ 21		GEN	
Granddam Dam		A	C	E	K	A	A	C	C	D	D	G	G	C	C	B	B	A	C	B	B	G	G	C	E	B	E	X	X
		C	C	D	K	A	A	C	F	C	D	C	G	C	C	B	B	A	D	B	B	E	G	C	D	B	E	X	X

Final DNA Comparison of Dam to Woodford																												
	PEZ 1		PEZ 3		PEZ 5		PEZ 6		PEZ 8		PEZ 12		PEZ 20		UCB 2010		UCB 2054		UCB 2079		PEZ 16		PEZ 17		PEZ 21		GEN	
Sire	C	D	N	N	A	A	E	F	C	D	D	E	C	D	B	B	C	E	A	B	C	D	D	E	B	D	X	Y
Dam	C	C	D	K	A	A	C	F	C	D	C	G	C	C	B	B	A	D	B	B	E	G	C	D	B	E	X	X
Woodford	C	D	N	D	A	A	C	E	D	D	D	G	C	D	B	B	A	C	B	B	D	E	D	D	B	E	X	Y

Ultimately, the resample of Woodford's dam and the initial profiles on his littermates all proved to be well matched to each other and this situation was resolved in favor of reinstatement of the litter registration and clearing the breeder of any wrongdoing.

CASE STUDY #2 – SAMPLE COLLECTION ERROR - AKC PROFILE EVALUATION

It is interesting to note that this event had a knowledgeable organizer who was considered a “witness” to the sampling process, presumably to prevent detractors from leveling accusations of dog substitution. Even with a “witness” present, accurate results could not be guaranteed and an error was made in identification of two whippets. This example is a good argument to counter claims that a witness should be required. It did not help in this case and is not required by the AKC.

COVENTRY, CT 06238-1267

Reference Number: 201502354
Male Whippet Wildabout Woodford HP479735/02
Litter Number: HP479735
Sire: Domino Pop Goes The Weasel, HM892505/01
Dam: Sailaway Wilpen Avanti Vin, HP295903/02

Dear Ms. Miner:

This is a follow up to our letter dated March 10, 2015, concerning the registration of your dog as listed above.

As indicated in our letter, Wildabout Woodford was excluded to (cannot be an offspring of) its registered dam. Based on the submission of additional DNA samples and documentation, we understand that the identity of the excluded member was due to a misidentification of the sample submitted for the dam and not the parentage of the litter. Through additional DNA testing, we have verified the correct identity of the dam.

As a result, we have reinstated the registration of HP479735 and its offspring, which includes your dog. All necessary corrections in our DNA database have been made and we consider this matter closed.

Thank you for your cooperation and patience in this matter.

Sincerely,

Judy Rivezzo
DNA Operations Department

Enc.

HYPOTHETICAL EXAMPLE

Hypothetically Horrifying

In order to understand the ramifications of a potential error in DNA profiles, let us reconsider the situation discussed earlier in Case #2. In that situation, we had Woodford, (8 week old puppy), his dam (7 years old), and his living maternal granddam (12 years old), in autumn of 2014.

Let us imagine a somewhat different situation, ten years into the future (2024). In this hypothetical, Woodford was not profiled as a pup. Nor was his maternal granddam profiled. By this time, Woodford and his littermates have accumulated many achievements: AKC Field Champion titles (and lesser titles such as JC, SC, or MC), CWA racing championships such as ARX, NARX, SRA (and lesser titles such as PR TRP, or possibly DPC). In addition, two of the littermates have won CWA National Race Meets. And three of the littermates have produced numerous litters that are competing in conformation, lure coursing, and racing competition, much like their sires/dams.

AKC finally requests submittal under their Frequently Used Sire requirement (seven litters in a lifetime or three litters in a calendar year). So, the sample is collected and duly submitted for a DNA profile. Just as in the Case #2 scenario, we are horrified to learn that the result shows a mismatch to Woodford's dam.

At this point, Woodford is 10 years old. His dam is 17 years old and likely expired. His granddam would be 22 years old, so definitely no longer available for sampling. The AKC asks for an explanation for the mismatch for a litter born back in 2014. And what could one possibly say? It would be virtually impossible to offer any plausible explanation for the mismatch with two critical ancestors unavailable to be sampled.

Worst Case Scenario

When AKC can't locate any solution in their files (and chances are good that they would not find an answer in this case), their only choice would be to demote Woodford and his littermates to Conditional Registration. Conditional Registration trickles down to descendants, so all of the offspring from Woodford and his littermates would be demoted to Conditional Registration. And if there are grandpups, those would be demoted to Conditional Registration, as well. Conditional Registration persists until there is a DNA-verifiable pedigree for 3 generations. That's a long time, in dog-years.

Meanwhile, all the whippets that are so demoted are stripped of all their AKC Lure Coursing achievements/titles. They are also stripped of all AKC Conformation achievements/titles. Likewise for any other program they participated in that required regular AKC Registration. So, it's likely they would lose all other racing and coursing achievements/titles. In addition, when all of those titles are rescinded, it could impact AWC ROM/ROMX titles awarded to ancestors and those awards could be revoked. In addition, there is the distinct possibility of a cascade of legal action brought by clients who bought puppies in good faith, who are then impacted by loss of regular AKC Registration and revocation of titles and achievements.

All in all, this is something I would not wish on anyone in the fancy.

KNOWING BETTER AND DOING BETTER

It's safe to say that if you're not doing profiles now, I would encourage you to give it some thought. Keep in mind that unlike cardiac or eye exams, a DNA profile is done only once in a lifetime, so it's one of the most cost-effective tests you can give to your whippets.

Take advantage of the AKC's offer of prepaid kits at \$35 apiece with a new title. Do your oldest dogs first to make sure you don't lose the opportunity to sample them. Seek out older ancestors for sampling if they are alive and accessible. Consider sampling every puppy you produce, to protect their pedigrees and to protect your own reputation as a reputable breeder.

Conclusion

Until AKC DNA profiles become a standard practice in the fancy, every whippet breeder or owner is living in a house of cards. A pedigree error that occurred years ago and brought to light after multiple generations of descendants can devastate even the most reputable of breeders. Every breeder is reliant on the accuracy of records produced by the breeder before them and is operating ON FAITH when it would be so much better to be working with HARD PROOF that could protect their work from complete devastation. The possibility of disaster sits at the doorstep of every participant in the fancy and can ruin breeding programs faster and more completely than a ruinous health outcome!

DNA profiles must become de rigueur in the whippet fancy and the sooner, the better. Until the list of practices that define the Responsible Breeder includes DNA profile of every puppy's sire and dam (and eventually, the puppy, itself), the fancy is in peril.

What can we do?

- *Each of us must raise our standards to include this one-time, inexpensive, simple procedure on our breeding stock (at a minimum)*
- *We must require proof of completed AKC DNA profiles on breeding partners or collect samples for submission at the time of breeding.*
- *As responsible breeders, we can include AKC DNA profile numbers in advertisements, much as we include health testing status in our ads.*
- *AKC DNA Profile numbers should be included in database entries in The Breed Archives.*
- *The very FIRST THING that puppy buyers should be advised to ask a breeder is whether AKC DNA profiles are available for the parents of any puppy they might consider for purchase, as without assurance that the pedigree is accurate, health testing history and achievements in competition may not be relevant.*

Recommended Best Practices

1. Start small and grow your profiling efforts as you become more comfortable with the practice.
2. When collecting samples, fill out your paperwork first. Then sample one dog and seal the envelope before proceeding to the next dog.
3. Wash your hands between collecting samples from one dog and the next dog.
4. Consider the use of microchips to definitively link your dogs to their DNA specimens and to their other health tests.
5. Scan your dogs' microchips before DNA sample collection or performing any other health test. Ensure that the microchip number is listed on the paperwork of every health test and that the box for "verified ID" is checked on the paperwork. (Look for that "Verified Permanent ID", -VPI suffix on your OFA certificate numbers.)

KNOWING BETTER AND DOING BETTER

6. Have your AKC DNA profile numbers listed in a public database such as OFA, the Whippet Health Foundation, or The Breed Archive.
7. Add a requirement for AKC DNA profiles on both sire and dam to your breeding contracts.
8. Do carry a free (not pre-paid) AKC DNA Sample Kit to any breeding, just in case the profile hasn't already been submitted and processed. It is important to have that sample, just in case the promised AKC DNA profile number never materializes. (Sadly, people do lie about having their dogs profiled and you may not get another chance to collect a sample.)
9. Add AKC DNA profiles to the list of requirements that define the Responsible Breeder.
10. Advise puppy buyers to seek Responsible Breeders when shopping for a pup and to request AKC DNA profiles for both parents of any litter.
11. In the event that AKC reports an anomaly to you, DO NOT HIDE THIS INFORMATION! You are ethically bound to notify your breeder, the owners of any dog that has used your dog for breeding, and any person who has acquired a puppy descended from the animal in question that an issue is under investigation. The issue may resolve favorably, but in the event that it does not, it is imperative to demonstrate concern for the impact that this may have on others. In this light, it is wise to notify any organization in which the dog participates that the AKC has reported a pedigree anomaly, so that they can advise you on the wisest course of action regarding continued competition.

*Do the best you can
until you know better.
Then when you know better,
do better.*

Gibson

Gibson Flying V of WyndSOR
ARX SRA PR7 TRP

To say the last twelve months have been heartbreaking would be an understatement, as our family saw the passing of Austin, Gibson, and Cleo. We were able to share our homes and hearts for many wonderful years, and we are forever thankful to their caring breeders that entrusted us with their puppies through the years. Our family has met and made so many wonderful friends in both the show and racing Whippet community.

Austin was our stoic and steady "old man" even from day one, who brought us into the fun past-time of Racing for Fun.

Cleo was our "energizer bunny" and knew how to get exactly what she wanted.

We had looked forward to many more years of travel and racing with Gibson, but unfortunately this was not the case, as he left us quite suddenly this winter.

Through the sport of racing and the love of our dogs, our family has travelled many miles and made some lifelong friends.

Give your Whippets a hug and enjoy them for every moment they share their bright lives with us, whether that's snoring upside-down in bed, or putting a hole through the bathroom wall, or tearing up your yard chasing the soccer ball.

The Szabo Family: Peter, Nancy, Jennifer & Emily, Maple Ridge, BC, Canada

report by Liz Aiello, photos by Marco Stumbo

What would a race weekend be without a little weather. We used a new (to CWA) venue, North Branch Park in Bridgewater, NJ, as our usual NJ spot at Fort Mott State Park has been closed. The day started out overcast, which was great, as it kept the gnat infestation down. By match time we were in a hailstorm. More on that later.

Saturday started with 32 adults and 1 puppy and ended with 32 and 1. Meet winner was Halima, (Shannon Downs The Conquest), owned by Dawn and Tom Fyler. Halima received 5 ARX and 5 NARX points. In second place was Cheers (Mystic Run Hip Hip Hurray of Lanruvi & Cogshall), owned by Annie Andrews, Jennifer Smith and Mary Huff, who was awarded 3 NARX points; in third place was Wanda (Ragapple Wild West Wanderer), owned by Alice Mark, who received 3 ARX and 1

NARX point; in fourth place was Wannabe (CH Deerpath Wannabe Flying Ebony), owned by Nancy Jorczak; and in fifth place was Asher (CH Snow Hill Thinking Out Loud), owned by Diane Murray and Suzie Hughes, who received the bottom set of ARX points (1 ARX). Venus (Panache

heavier until it was finally a full out hailstorm with hail the size of peas hitting everyone in the match ring, and wind gusts threatening to take out our E-Z Ups. Everyone scampered under cover, hung on to the tents, and waited the storm out. We had set up a raffle, which we would normally have drawn after the match and awards, but since we had so much time to kill, we did the drawing and distributing of the raffle wins, and as we finished up, the rain and hail stopped and the sun started to peek through the clouds and we were able to proceed with the match.

the Final Countdown), owned by Pat Spinazzola, was our winning puppy.

While setting up for match, the rain began and slowly got

Our match was judged by Melissa Schnyder. Her placements were: 1-Tie Dye (CH Surrey Hill Mariner Across the Tunaverse), owned by Kristen Fredericks and Karen Lee, 2-Smokey (CH Shamasan Marial's Smoking Gun), owned by Marybeth and Douglas Arthur, Phoebe Booth and Peggy Berg, 3-Asher and 4-Venus. The DPC leg went to Venus.

Saturday match judge Melissa Schnyder and #1 Tie Dye, #2 Smokey, #3 Asher, #4 Venus

May 9, 2021
North Branch, NJ

report by Liz Aiello, photos by Marc Stumbo

Sunday started with 35 adults and 1 puppy. Meet winner was Cheers for 5 NARX points, followed by Halima for 5 ARX and 3 NARX, which finished her ARX title. Next was Wannabe in third place for 1 NARX point. In fourth place was Bandit (Lucy Penny's Speedo Bandito at North Star), owned by Carl and Donna Morgan, in fifth place was Wanda for 3 ARX points followed by a tie for the bottom set of points, which went to Gunner (Deerpath Cannonade Barrage), owned by Connie Unangst, and Pear (Ca-

report by Liz Aiello, photos by Marc Stumbo

li's Red Anjou), owned by Anna Fredericks, who each received 1/2 ARX point. Our winning puppy again was Venus.

The match was judged by Mandy Armitage, who placed Asher in first, followed by Marvel (Terrena's Comic Con), owned by Terri Deluca and Victoria Gise. Third place was Tie Dye and in fourth place was Smokey. The DPC leg went to Marvel.

RRWA and MAWRA would like to thank the Eastern Whippet Association for the use of their starting box and helping us obtain permission to use North Branch Park in Bridgewater NJ.

Thanks to all that helped with walking, boxing, line judging, lure and box operating. It makes a meet move faster if more people lend a hand.

Sunday match judge Mandy Armitage and #1 Asher, #2 Marvel, #3 Tie Dye, #4 Smokey

report and photos by Diane Johnson

The COVID restrictions opened up and we were finally able to have our first meet in May after waiting over a year. It was so much fun to be able to enjoy the company of friends and swap quarantine stories. But even better we were able to watch our dogs have fun doing what they love.

On Saturday we had 24 dogs entered that included five FTEs: a lot of COVID pups ready to experience the joys of competing. We were so happy for all the people that stepped in to help put on this event.

Kobe (Dioro Shadow of the Moon), owned by Diane Johnson, won the meet and received 4 NARX points. Second place, and 2 NARX and 4 ARX points, went to FTE entry AiliA (Hildidan's Fierce Magic of AiliA), owned by Candy Geiser. The second set of ARX points went to RennerR (Hildidan's Fierce Mamba Magic of RennerR), also FTE and owned by Candy Geiser.

Saturday's conformation match was judged by Kathy Kelly. The match winner was Trella (Wirtu's Promise Me the Stars), owned by Laura White. Second was Kobe (Dioro Shadow of the Moon), owned by Diane Johnson. Third was Dazzle (Wirtu's Dazzler Girl), owned by Janet Milam and fourth was Skylar (Skyes Bella Vista of WyndSOR), owned by Kim Robinson and Rick Ragan. Saturday's DPC leg went to Trella, and the High Combined winner was Kobe.

Sunday was another beautiful day of racing, with 20 dogs entered including one FTE. We had four A dog, including two who were FTEs from the previous day.

Kobe took the meet win, earning 4 NARX points. Second went to Jake (Dioro Shakey Jake), owned by Bonnie Charron, receiving 2 NARX points. Third place was AiliA, earning 4 ARX points, and fourth place for the bottom set of 2 ARX points, was FTE Bala (Dioro Delicate Balance), owned by Diane Johnson.

Sunday's match judge was Erin Lucas. First place was

Saturday and Sunday match winner: Trella

again awarded to the beautiful Trella, with second place going to Fleur (Crestfield Lovely to Look At), owned by Charlotte Fielder. Third place went to Dazzle, and fourth place was Keeper (Wirtu's Promises to Keep for Crestfield), owned by Kathy Kelly and Charlotte Fielder. The DPC leg and High Combined went to Trella.

report and photos by Chris Durance-Watkins

We started the day with five puppies and 21 adults. The weather was beautiful and the track was in good shape with very few fire ant mounds.

We had five puppies that ran clean all three programs. Ryder won all three races and was awarded Best Puppy!

Sansa and Cheers duked it out for the meet win. At the end of the day Sansa won three of the four programs to earn the meet win and 4 NARX points. The second set of NARX meet points went to Cheers. The top set of ARX points (4) went to Iris, who placed fourth in the meet. Razor and Watson split the bottom set of ARX points, with each earning 1 ARX point. Congrats to Lynesse, our turtle winner with a "perfect" score of 0 meet points!

Onward to the conformation match ... we had 17 of the 22 dogs eligible to show entered! WOW, that is CRAZY!!! Our judge Annie Andrews placed the dogs as follows: first to Weston, second to Bean, third to Tie Dye, and fourth to Sansa. This placement gave Sansa HIGH COMBINED and a DPC point. Congrats to all the winners!

Sunday was another beautiful day at One Day Farm. We started with four puppies and 20 adults. We had three of the puppies that ran the day before and a new one. All

Saturday Meet Winner and High Combined: Sansa

pups ran clean and are ready for the big league. Ryder prevailed as the undefeated winner again.

Cheers had some new competition today. Sansa sat out so her brother, Grimm could step in and challenge Cheers for a meet win. Cheers won the first three programs and Grimm snuck up and defeated Cheers the last

Saturday match judge Annie Andrews and #1 Weston, #2 Bean, #3 Tie Dye, #4 Sansa

report and photos by Chris Durance-Watkins

Sunday Meet Winner: Cheers

Sunday Match Winner and High Combined: Bean

program. Perhaps Cheers wanted the new comer to feel welcome ... hmm noooooo not a chance! Cheers walked away with the meet win for 4 NARX points with Grimm second for 2 NARX points and 4 ARX points. The second set of ARX points was awarded to Razor. Razor just needs a couple points to finish her ARX title. Our Turtle winner of the day went to Bentley. What fun racing!

Sunday's conformation match was judged by AKC licensed breeder judge Nubby Erickson, of Amigo Whip-

pets. We had another entry of 17 dogs (out of 22 eligible to show). Not a bad turn out again! Nubby awarded the following dogs placements: first to Bean, second to Tie Dye, third to Lancer, and fourth to Lanie. Lanie acquired the DPC leg for the day. This win gave Bean HIGH COMBINED. Congratulations to all the winners both days!!

Well that's it for CWA race meets at One Day Farm until the fall. Have a wonderful summer and we look forward to seeing everyone in September.

Sunday match judge Nubby Erickson and #1 Bean, #2 Tie Dye, #3 Lancer, #4 Lanie

report by Jean Balint, photos by Bonnie Moore

We were all a little apprehensive about the weather for our race meets. It was predicted to be very, very hot. Fortunately, we were lucky to have the famous Solano College Winds blowing so our racing conditions were quite tolerable.

The races between our top two in the meet, Sweet N Low and Kobe, were very competitive and exciting to watch. Sweet N Low finally came out as our meet winner and Kobe was best opposite in the meet. Finishing third and fourth were litter mates, RenneR and AiliA. They both ran great and made their breeder very proud. Bala also ran well and took the fifth spot. Skylar always runs hard and as usual finished in the top ten. She took the sixth place and her sister Bitsy took the seventh spot. Londyn Rose looked good and finished eighth. Shayla and Trella took the final two placements in the top ten.

Congratulations to the very happy owners.

On Saturday, we were lucky to have Christy Nelson as our match judge. She gave first place to Kobe, second place to Sweet N Low, third to Trella and fourth to Londyn Rose. Coming out as our High Score Combined was Sweet N Low. Her breeder and owner Kim Otero was thrilled and proud of her special girl.

Due to Covid restrictions we were not allowed to have our potluck lunch. In spite of greatly missing it, we had a good meet and a lot of fun. Many thanks to all the workers who made it happen.

Once again, the Solano college winds saved the day by keeping the temperature much lower than predicted for our Sunday meet. We were lucky to finish the meet and the match before it got really hot.

Saturday match judge Christy Nelson and #1 Kobe, #2 Sweet N Low, #3 Trella, #4 Londyn Rose

report by Jean Balint, photos by Bonnie Moore

Sunday match judge Marrianne Lu and #1 Londyn Rose, #2 Trella, #3 Keeper, #4 Disco

Once again Kobi and Sweet N Low dueled and this time Kobi came out as the meet winner and Sweet N Low took best opposite sex in meet. Renner and his sister, AiliA again were third and fourth in the top ten. The forever consistent Skylar took the number five spot and her sister Bitsy took sixth. Bala and Londyn Rose both ran great and finished in seventh and eighth place. Rounding out the top ten was another fine running youngster, PiP. He finished ninth and the pretty girl Curry was tenth. All of the above dogs ran great and made their owners very, very proud.

Sunday's match judge was a long-time member of our club, Marrianne Lu. She placed Londyn Rose first, Trella second, Keeper third and Disco fourth. To the delight of her owner Jen Haas, our High Combined was Londyn Rose. Jen was so excited and proud of her little girl.

I have to mention and congratulate all the other dogs that ran in our meets. They might not have finished in the top ten but they ran just as hard. Many, many congratulations to each of you. Without these special dogs we could not have a meet. They are all outstanding little racers.

Many of our members worked very hard to put on our two meets. I would like to give a big thank you to the following people. Jen, Kim, Rick, Charlotte, Val, Guin, Todd, Andrea, Teresa, Dennis, Barbara, David, Tara, and Che. They all contributed to the success of both of our meets. My last thank you goes to our great race secretary Bonnie. As usual she did an outstanding job. I have mentioned before that the NCWFA has a great race team. Again because of them our weekend was great and we all had a fun and enjoyable weekend.

North Star Racing
June 5/6, 2021
Columbus, MN

report by Barb Hearley, candid and racing photos by Gail Weiberdink, match photos by Fran Hearley

Minnesota did not make it easy for us with a high of 102 by mid-afternoon on Saturday and 99 on Sunday. Luckily, it started out cooler, wasn't humid, we had a nice breeze and we were able to finish racing by 12:15 both days.

We started out Saturday with 13 dogs and one puppy: one FTE, three D dogs, four C dogs, two B dogs, and three A dogs. All the races were super competitive with dogs coming in different placements each program. All the points came down

Saturday match judge Jan Wahl and #1 Meat Loaf, #2 Talim, #3 Wes, #4 Lola

NSR

earning 1 NARX and 3 ARX points. FTE Alex was fourth in the meet earning 1 ARX and had a blast in his first race meet. Puppy Tempy did excellent in her first official race meet.

Our judge Saturday was Jan Wahl, who chose MeatLoaf, Talim, Wes and Lola. Talim was high combined.

Sunday we dropped to 11 dogs: one FTE, three D dogs, two C dogs, two B dogs, and three A dogs. Talim ran undefeated and earned the top set of 3 and 3 NARX points.

Lola came in second earning

to the very last program!

Lola won the meet for 3 NARX points with Talim second

1 NARX point. FTE Julian was third for the last set of 1 ARX point. Our turtle was Zippy. Puppy Tempy continued to have a good time and learn all the things.

CH Deerpath Wannabe Flying Ebony, ARX, DPCX

CanCH Sailaway Storm Trooper, ARX, DPCX, TRP, PR-2, CanFCHX x GCH Deerpath Signature Cartier, SC, ARX, DPCX, PR, TRP
AKC DNA Profile # Vg62o78

A good start to 2021 for Wannabe as he finished his AKC championship in February and his ARX in March. By the end of June he had accumulated 9 NARX points and was tied for #8 in the CWA Racing Top Ten. He did this in just 8 meets.

At MAWRA's June 19 meet, Wannabe finished second in the 40 dog meet, with his litter brothers Bogey and Gunner following closely in third and fourth place respectively. So proud of Panther's racing boys!

We are looking forward to more fun racing this summer and autumn.

MAWRA

June 19/20, 2021
Bridgewater, NJ

report and photos by Liz Aiello

The weather for Saturday's meet was very uneventful. Nothing special for the MAWRA group. We started Saturday with 40 adults and three puppies.

Saturday's meet winner was Cheers (Mystic Run Hip Hip Hurray of Lanruvi & Cogshall, owned by Annie Andrews, Jennifer Smith and Mary Huff), who was awarded 6 NARX points, followed by Wannabe (CH Deerpath Wannabe Flying Ebony, owned by Nancy Jorczak), who received 4 NARX points. Third was Bogey (Deerpath Noralor's Bold Venture, owned by Jan Siehndel) who received 6 ARX and 2 NARX points, Fourth was Gunner (Deerpath Cannonade Barrage, owned by Connie Unangst), who received 4 ARX points, and the last set of 2 ARX points was split between Nelson (Surrey Hill It Takes Two To Tango at Mariner TRP, owned by Sarah Salisbury) and Duncan (Surrey Hill Mariner Eternally Grapefruit, owned by Deb Hanna), with each receiving one point.

Saturday's puppy racers finished as follows: Poppy (Shamasan Fly Fast & Easy, owned by Sarah Salisbury), Twiggy (Wesann's Willow Twiggy, owned by Mary Fox), and Fia (Surrey Hill A Trifle Foxed At Mariner, owned by Elisa Becze).

Saturday's match was judged by Jen McNabb of Carry-On Whippets, who selected Duncan as her match winner,

Saturday and Sunday meet winner: Cheers

followed by Smokey (CH Shamasan Marial's Smoking Gun, owned by Marybeth and Douglas Arthur, Phoebe Booth and Peggy Berg), Nelson, and Clara (Ch Mystic Run Nine to Five, owned by Annie Andrews).

Saturday's high combined was Duncan!

Saturday match judge Jen McNabb and #1 Duncan, #2 Smokey, #3 Nelson, #4 Clara

Bridgewater, NJ

report and photos by Liz Aiello

Sunday match judge Joanne Boudreault and #1 Poppy, #2 Smokey, #3 Squiggles, #4 Booster

Sunday started off just as nice as Saturday, with nice weather, but as the day went on, the humidity took over, and we needed to call the meet after three programs.

We began with 42 adults and three puppies. The meet winner was again the marvelous Cheers, who received 6 NARX points and finished his SRA. Wanda (Ragapple Wild West Wanderer, owned by Alice Mark) was second in the meet for 6 ARX and 4 NARX points to finish her ARX. Wannabe was third in the meet and earned the bottom set of 2 NARX points. Watson (Fallowfield Quite a Dizzy!, owned by Julie and Paul Vermeulen) finished in fifth place, for 4 ARX points, and Pear (Cali's Red Anjou, owned by Anna Fredericks) finished eighth and earned 2 ARX points.

The puppies finished in the same order as Saturday: Poppy, Twiggy and Fia.

Sunday's match was judged by Joanne Boudreault of Forget-Me-Not Whippets. Her placements were awarded to Poppy, Smokey, Squiggles (Mariner Surrey Hill Super Asymmetry, owned by Kristen Fredericks and Karen Lee), and his littermate Booster (Mariner Surrey Hill Escape Velocity, also owed by Kristen and Karen).

We had a tie for high combined between Smokey and Booster but since Booster finished higher in the meet, he was awarded the honors. This was his first meet as an adult and he shows great promise.

MAWRA will keep racing at North Branch Park in New Jersey as our northern field since Ft Mott is still up in the air. Our RV people like it as it has hook-ups, Liz likes it as it has real bathrooms!

Saturday and Sunday Best Puppy: Poppy

Do you want to read more about Whippets?

The glossy, printed Whippet Review has met with raves from the entire breed community ... The best articles and the most beautiful photographs of the world's most wonderful Whippets. Already honored by the Dog Writers Association of America, Whippet Review is mailed to more than 20 countries. It is also sent to several hundred AKC judges in an attempt to make them increasingly aware of our breed.

This is a print publication devoted to ALL Whippet activities!

WHIPPET REVIEW's last four issues feature the following:

- Interview with long-time breeder of racing Whippets, Jean Balint, WyndSOR • The Meander Story and the Shearer sisters, by Eugene Jacobs • From England in the 1940s to USA in 2020: interview with Shirley Cooney
- Breeding for Speed and Beauty, an interview with Carl Morgan • Children and Whippets • Are Breeders Really Gods? • An Interview with "Whippet Up" in the UK • World in Review • Too Many Whippet Puppies, by Bo Bengtson • All-Time Record Book • Fun and Games at the National and the Willow Award, by Patience Renzulli • Comparison of Whippet Standards • The All-Time Top Whippet Sire and Dam • Karen Bowers Lee on Mentoring, How to Pick a Stud Dog, Whippet Heads, and much else • The Whippet Health Foundation, by Mary Beth Arthur • Pedigree Analysis • Dock Diving • Unusual Whippet Colors • The "Camel Sit" • Mixing Breeds • "Stud Dog Tail" • Separation Anxiety • All Those Titles • Top Whippets from the Past • Coat or No Coat? • Regular news from the UK by Claire Rishworth: Crufts and the Breed Club Championship shows
- Specialty reports by Phoebe Booth, Joseph Buchanan, Karen Roberson, Susie Butler Dodd, Harriet Vincent, Cindy Scott, Ken Tippie, Sharon Zaker, Jason Hoke, Sharon Sakson, Debbie Davenport and Kathleen Davenport

... and much, much more!
